Solutions for serving and displaying wine.

6000 SERIES

DESIGN, PERFORMANCE AND CUSTOMISATION

The latest generation of wine cabinets ...

- A range of temperature options to ensure your wine is stored at precisely the right temperature

1, 2 or multi-temperature according to your serving and/or storage requirements

- A unique, customisable product thanks to a wide range of modular equipment which is both durable and attractive

- An environmentally-friendly product

Rated A+, the 6000 series saves up to 55% in energy compared with a conventional wine cabinet

- A range manufactured in France

The «Origine France» label guarantees the origin and place of manufacture and supports French expertise

BVCert. 6010761

Storage shelf

Capacity for up to 77 bottles

Display shelf

Capacity for up to 32 Bordeaux bottles

Serving shelf

Capacity for up to 20 bottles in a vertical position

MORE DESIGN, TECHNOLOGY AND SERVICE?

These cabinets can be customised to favour storage, access to your bottles or bottle protection... and to optimise their presentation!

1 | Choose your shelf front cover

The warmth of **light oak** or the modernity of **glossy black**?

2 | Identify your wine

Shelf labels in epoxy-coated steel can be fitted to the shelf and you can write the names of your wines thanks to an erasable marker pen...

3 Enhance the appearance of your bottles

A strip of light around the cabinet envelopes the bottles, showcasing them beautifully.

4 Ensure optimal protection for your bottles

- **The new-generation “Main du Sommelier” support**

This structure in two materials which cradles and protects your bottles from vibration is detachable to allow you to organise your bottles according to their shape and number. User-friendly, your bottles will slip easily into place.

- **A soft close device** on each sliding shelf allows the shelf to close slowly and quietly.
- **5 year warranty** available as an optional extra.

STORE AND SERVE YOUR WINES IN THE BEST POSSIBLE CONDITIONS...

The 6000 series offers 5 wine cabinet models with capacity for 74 - 182 bottles.

Choose the model to suit your space and requirements...

Single-temperature

Adjustable from 5 to 20°C, it can be dedicated to storing your bottles or bringing wine to the correct serving temperature.

2-temperature

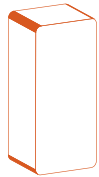

2 separate temperature zones to efficiently store all of your wines at serving temperature

Multi-temperature

A temperature difference of 10°C between the top and bottom of the cabinet, which can be set from 5 - 22°C, to ensure that all your wines are served at an ideal temperature.

Large model
Up to 182 bottles*

6182V

Up to 60 white wines

Up to 110 Red wines

6170D

6182S

Small model
Up to 74 bottles

6074V

6074S

* except for the 6170D: 170 bottles
